10:30 – 12:00 PM

SESSION 2-E-2

Waterfront Ballroom B

ADVANCES IN MATHEMATICAL MODELING OF HORSE RACE OUTCOME PROBABILITIES

Presentation by Bill Benter, Las Vegas

Discussant: Randall Chapman, Chapman & Associates, Florida

Arguably, the most successful system ever devised to “beat the house” was the result of efforts undertaken by Mr. Benter and others in response to a methodology suggested in Randall Chapman’s seminal 1981 paper entitled: “Searching for Positive Returns at the Track: A Multinomial Logit Model for Handicapping Horse Races.” The resulting systems, that were documented in a 2002 article in **WIRED** magazine— (http://www.wired.com/wired/archive/10.03/betting_pr.html)—have been applied to pari-mutuel wagering opportunities in Hong Kong and elsewhere. This session addresses the underlying mathematics and quantitative analysis of such systems.

10:30 – 12:00 PM

Session 2-F-2

Cheakamus

GAMBLING BEHAVIOR: ISSUES OF ADVERTISING, YOUTH RISK-TAKING, AND A NEW SCREENING INSTRUMENT

Moderator: Mark Griffiths, Nottingham Trent University, United Kingdom
